7. Statistics. During the period 24 August through 26 September, 340 cables have been processed in the office of AO/OS. Of this number, 40 groups have been forwarded to C/OS for his information, as well as several to DDTR and to the Administrative Officer, OTR. The 40 groups forwarded to C/OS consisted of 222 cables, some of which were attached to furnish background for the current cables. An effort is being made to screen the cable traffic as carefully as possible, to avoid burdening either C/OS or D/TR with matters of little interest to them.
